IMPROVEMENTS.—James Bennett, of Bennett's Forest City House, contemplates putting another story upon the extension of that house towards the south, so as to have the entire block the height of that portion fronting upon Superior street. This being done the house will be one of the most imposing in the city.

The paving of Mendow street has been completed, and that thoroughfure is now in as passable a ndition as any in town. Light House street, between the Railroad and River street, has also been paved and curbed. These improvements are appreciated by those doing business in their vicinity. Long street is being graded and rendered more like the street it should be. This street is one through which much travel passes, and the cutting down, filling up, and smoothing, will be a good deed done.

rity of the Judiciary, to ask no longer to avoid a trial, which he should either demand or resign. The duty of the House was simply to ascertain whether there is probable cause. It was not for the House to inquire whether he is innocent or guilty—that was for the Sonate to determine. Mr. Tappan, of New Hampshire, was opposed

to the impeachment of Juage Watrous.

He asked the House to examine the evidence and not be diverted from the proper line of pro-ceeding by outside pressure. On this evidence

alone he wanted them to say whether Watrous was innocent or guilty.

The resolutions of the Legislature of Texas in condemnation of his conduct, grew out of the decision touching the statute of limitation, and affecting the pockets of the people of that State, which decision was sustained by the Su-

reme Court of the U. S.

He said there was no evidence to show that Watrous contemplated sitting as judge of his own cause, and that in the purchase of land se lost none of his rights as a citizen of Texas -Judge Watrous has done nothing to prevent him from coming from this ordeal with a smell on his garments. Instead of concealing the evidence showed that Watrous promptly disclosed that he had an interest in certain cas-
